FORCE WEALTH TO PAY TAXES URGES BAILEY

Texas Senator Makes Strong Speech in Support of An Income Tax Amendment.

WASHINGTON, D. C., April 27.—Denouncing the principle of a protective tariff as unfair in taking money from one man to give it to another, in order to encourage him in the pursuit of an otherwise unprofitable business, Senator Bailey of Texas delivered a set speech on the Democratic side in opposition to the pending tariff bill and in favor of an income tax. Both the floor and the galleries were crowded. Mrs. Taft occupied a seat in the President's gallery. After he had proceeded without interruption for over an hour, several Senators engaged in colloquies with him. Referring to Mr. Bailey's statement that the duties of the pending bill might be lowered 33-1-3 per cent, Mr. Aldrich asked whether he supposed the profits of American industries equaled that amount.

Enormous Profits of Steel Trust.

Mr. Bailey replied that in the case of the United States Steel Corporation he believed they had, and he cited the increased capitalization of that organization as an evidence of enormous profits. Furthermore, he explained that a reduction of 33-1-3 per cent in duties did not mean an equal cut in profits. He insisted that such a lowering of the rate of duty would not seriously affect importations, because he believed American manufacturers would not be stimulated by the added foreign competition, and would continue to supply the markets.

Mr. Bailey discussed his amendment providing for an income tax, which was criticised by Mr. Aldrich as tending to reduce the protection that would be given American labor

if it should result in a proportionate decrease of customs duties. Mr. Bailey favored restriction of immigration as a protection to American labor.

Mr. Aldrich retorted that while Mr. Bailey was ready to keep the foreign labor from our shores, he was not averse to allowing the produce of this cheap labor to come in competition with the product of American working men.

Mr. Bailey first took up the proposition to turn over to a tariff commission the consideration of the schedules of the tariff bill, commenting on which he declared that he did not believe in "turning over to political enclaves" the consideration of such a great question, even though they were so impartial as to entertain an aversion for what is bad or preference for what is good.

The question of taxation, he said, had always engaged the attention of statesmen and he did not believe in withdrawing it from the people to place it in the hands of a commission. At some other time, he declared, he would speak on "the folly of attempting to guarantee profit by any law and the injustice of taking from the millions who labor in any line of employment to bestow an advantage upon the few in any particular industries."

He would not, he said, at this time discuss free trade, which, he declared, was impossible in this country.

Tax Wealth, Not Consumption.

"I do not hesitate to say," he added, "that I believe in taxing wealth instead of consumption, and if it were in my power I would compel every man to contribute toward the support

MRS. STONE ASKS AID IN U. D. C. WORK

ANNUAL REUNION OF VETERANS AT MEMPHIS, TENN.

Assistance Is Needed in Erection of Monuments at Shiloh and Arlington National Cemetery.

The following letter by Cornelia Branch Stone, president-general of the United Daughters of the Confederacy, has been sent The Sun with request for its publication:

"To the United Daughters of the Confederacy: Again your president sends greetings to you with all good wishes, that the spring-time has brought you health and happiness and harmony of action and endeavor; with the hopeful resurrection lesson that nature teaches, that, if fruition shall come to us later, this is the season of labor. Therefore, it becomes my duty to urge you to summon your forces for the work that is before us, if the objects of our organization shall be fulfilled.

"The Committee of the General Association, U. D. C., have formulated plans for this purpose, and ask your co-operation. The chairman of Committee on Education, Miss Mary B. Poppenheim, Charleston, has ably outlined this work, in most comprehensive form, and it is requested that State presidents, and chapter presidents in States where no Division exists—will appoint a State Committee on Education to carry out her plan. State Division presidents will give support and aid to the work of Mrs. J. Enders Robinson, Historian General, U. D. C., for without such support she cannot execute the excellent plan proposed for the advancement of this department. State and chapter registrars are asked to respond promptly to the request of Mrs. James Britton Grant, Registrar-General, U. D. C., for data and records of their offices.

"It is well to call your attention to the near approach of the annual reunion of our dear veterans of the Confederacy, which will be held in Memphis, Tennessee, June 8th, 9th and 10th. Let us rally to their banners, which will be proudly unfurled, and show them by word and deed, that we cherish their service and sacrifice, that we may still be to them, as in the past, an inspiration and strength. We honor ourselves in paying tribute to these heroes of imperishable fame.

"Since my last letter to you, Dr. J. William Jones, chaplain to Gen. Robert E. Lee, and historian of the Confederate States, noted and divine.

of the government, according to what he has and not according to what he wants."

Speaking of the principle of protective tariff, Mr. Bailey said: "If your law ended when it gave your fellow-citizen an advantage over the citizens of another country, I would be one of its most ardent supporters. But it does not end there, because its inevitable effect is to give a few of our fellow citizens an enormous advantage over the others of our countrymen."

The practical effect of protection, he said, was to give a bounty to the favored manufacturer.

One difference is in the direct and the indirect way of taking money from one man and giving it to another who has no longer claim upon it," he said, referring to the proposed amendment for an income tax. He declared his sympathy to Senator Aldrich and said there was a time when such a proposition was described as a "tax on red-headed babies."

Mr. Bailey will remain in town, where he will devote his attention to the coming night session of all changes in the

LEGISLATURE KEEPING WELL UP WITH WORK

Unusually Large Number of Bills Have Been Introduced But Many Local in Character.

TALLAHASSEE, April 27.—The beginning of the fourth week of the 1909 session finds the Florida Legislature well up with its work and far in advance of the progress at a corresponding date of any session in many years.

To date there have been 232 bills introduced in the Senate, as against 224 in 1907. In the House there have been introduced 356 bills, against 261 during the first three weeks of the 1907 session.

Two years ago the first three weeks had almost passed before the engrossing clerks of either house became busy, but this session these important clerical departments have found themselves confronted with a volume of work from the outset that bespeaks energy and a desire for accomplishment on the part of the legislators.

The calendars are well filled, but indications are that both houses will have ample opportunity to work on the calendar before the present week ends.

There are no bills on third reading on the Senate calendar, but there are fifteen measures on the table that are subject to call at any time. However, there are found ninety-eight bills on second reading.

On the House calendar are three bills on third reading, four concurrent resolutions on second reading and 148 bills on second reading.

Last session a great many bills reached second reading and died on the calendar. A repetition of this is being guarded against, and it is believed that proper disposition will have been made of practically every measure when the session comes to a close.

Both houses will convene today, the Senate at 10 a. m. and the House at 3 p. m. Practically three-fourths of the members have been out of the city at some time during the three-day session.

The Disfranchisement Measure.

Joint resolution by Mr. Beard,

proposing disfranchisement of the negro vote, is set as a special order in the Senate for 10:30 this morning. The resolution provides for a constitutional amendment, and the negro will no doubt attempt to defend his rights to vote at the next general election.

Senate Bill No. 121 by Mr. Henderson, fixing the standard of cottonseed meal sold in this State—this to prohibit the sale of inferior cottonseed meal without notice to the public—is set as a special order for tomorrow at 11 a. m.

Senate Bill No. 15, by Mr. Beard, prohibiting the sale, exchange or barter of intoxicating liquors, wines or beers, is set as a special order for 11 a. m. Thursday. This is the statutory bill Mr. Beard desires to have passed instead of the resolution providing for constitutional amendment.

Letter from Bryan.

House Resolution 42, by Mr. Alexander of Volusia, condemning and disapproving of certain attacks alleged to have been made by Congressman Clark upon the Democracy of Hon. W. J. Bryan and Hon. Champ Clark, is set as a special order for today.

Mr. Alexander received a letter from Mr. Bryan yesterday stating that if he came to Tallahassee to address the Legislature in reply to Congressman Clark, the visit would be after June 1. The session of the Legislature closes June 5.

The message of former Governor Broward which contained his veto of the bill passed in 1909 providing for the return by the I. I. Fund Trustees of the money collected by special drainage tax levied through an act of the Legislature of 1905, was set as a special order in the House for yesterday, but as the Legislature was in recess the matter will have to be taken up at a later date.

The House will hold a session beginning at 8 p. m. tonight to consider local bills.

Sultan Is Deposed; His Brother Placed on Throne

CONSTANTINOPLE, April 27.—Abdul Hamid II has been deposed as the Sultan of the Turkish Empire, and Mehmed Reschad Effendi, his brother, will be proclaimed his successor, probably by 3 o'clock this afternoon.

The deposition will be through the regular form prescribed by the tenets of the Mohammedan faith. It is understood that Sheikh Ul Islam, head of the church, will issue the decree of deposition. News of the deposition of Abdul Hamid and the selection of his brother to succeed him caused great excitement throughout Constantinople. Crowds at once began to

gather in the principal squares and thoroughfares and around the imperial palace of Yildiz in anticipation of the proclamation of the new Sultan.

New Sultan Proclaimed.

CONSTANTINOPLE, April 27.—Mehmed Reschad Effendi was proclaimed Sultan of Turkey at 2:30 o'clock this afternoon, in succession to his brother, Abdul Hamid II. The Sultan was dethroned by the National Assembly, whose decision on the proposal was unanimous.

A salute of 101 guns was fired at 2:30 this afternoon, which announced to the populace of Constantinople a change in the Sultanate.

Pensacola Lady Killed in Automobile Accident

PENSACOLA, April 27.—Three persons running about forty miles an hour, were killed yesterday when an automobile, in which they were riding, was struck by an electric car. Mrs. Catherine of Pensacola died from injuries. The others hurt were Mrs. J. B. Jones, and Mrs. Clark of Mobile.

The auto was struck by a 1000-lb. electric

Alabama Mob Hastily Hang Woman's Assailant

BIRMINGHAM, Ala., April 27.—John Thomas, a negro, was quietly lynched by a small crowd of men about one mile below Bessemer at 2 o'clock yesterday. The negro was being taken to jail in Bessemer when he was overtaken by citizens, who made short work of the prisoner by hanging him to a tree in the woods. After the hanging, the crowd quietly went back to their homes.

Thomas committed criminal assault upon a lady named Mrs. Patterson, near Parkwood, on the Louisville and Nashville railroad, about noon Sunday. The news spread rapidly and the citizens began the pursuit. The negro was found near the scene of the crime late in the afternoon at the home of a father for whom he worked. He was taken before a justice of the peace, and a warrant was issued for him. The citizens, however, probably more than a dozen, then while after she reached her home the negro's father, Mrs. Patterson, was found in New Jersey. She left him partially paralyzed. Her first husband was killed in the war, and she had no other relatives in this community.

for Bessemer, where he was to be lodged in jail.

All went well until Roy and his prisoner got within about a mile of Bessemer. Here they were overtaken by the citizens and the negro was examined to make doubly sure he was the right man. Thomas finally confessed to the crime, but said he did not mind going to jail, that he did not want them to hang him. He told the posse that he had just gotten out of jail, where he had served several years, and that he did not mind going back. He only asked them to spare his life. The response was a rope, and he was swinging to a tree the next moment.

Upon a Sad Mission.

A telegram was received Tuesday by J. B. Brown from his wife announcing that her father had died only a few days before she reached her home in New Jersey. She left for the funeral immediately on receipt of the first message but arrived there only a few days before his death, and a mother's sympathy in the hour of grief.

MR. CARLTON WRITES OF RECENT CONVENTION

TRIP TO JACKSONVILLE PROVED
MOST PLEASANT.

Very Courtesy Was Shown the Post-
masters and All Were Delighted.
Micanopy Building.

Editor Sun: The Florida Association
of Postmasters assembled in con-
vention at Jacksonville, Fla., April
14th, 14th and 15th.

As we were allowed six days' leave
absence, I went on Saturday be-
fore to attend the Easter services in
church Sunday. It was thought some
months ago that the new church
which is in course of construction
could be ready for use on that oc-
casion, but it was not, and the old
temporary church, which was built
after the big fire, is still in use, al-
though inadequate to the needs of
the congregation. The new one is a
magnificent structure and will be
large enough to accommodate the
crowds that could not be seated and
remained standing, some outside the
door after the church was filled that
day.

I had the privilege of seeing two
my little grandbabies baptized
here, one the infant daughter of Mrs.
Grace Arnow of Jacksonville and the
other the baby boy of Mrs. Josie Ar-
now of Micanopy. At the time the
baptismal ceremonies were going on
the holy water fount, a marriage
ceremony was being solemnized in
front of the altar.

On Monday I visited the postoffice
and was shown through the interior,
where a number of clerks were kept
busy, each one doing the work as-
signed him. While there I was for-
tunate in finding some fixtures that
will need for the new postoffice
here.

On Tuesday many topics were dis-
cussed at the two sessions of the
convention relative to postal affairs
and at the close the postmasters
were invited to attend the theatre at
Orlando in the evening.

On Wednesday there was only one
session, which closed at 12:30, and
we were treated that afternoon to a
trip on the St. Johns river to Green
Cove Springs. We went first to view
the spring and watch the bathers un-
til time to go to the campus and wit-
ness the military drill. When that
was over we returned to the boat
and started on the homeward journey.
The banquet on the return trip was
all that could be desired and seemed
to be thoroughly enjoyed by every-
one. After the last course was serv-
ed we were entertained the balance
of the trip by the band that had
accompanied us from Jacksonville.
The selections rendered would have
to be heard on the water in the still-
ness of the night to be fully appre-
ciated. We reached Jacksonville
about 10 p. m., very tired but much
pleased with our day's outing.

On Thursday the last session closed
and we assembled at the postoffice,
where a picture was taken of the
large group. After that we were
shown Jacksonville in touring cars.
The most interesting feature of that
ride was the man with the mega-
phone, who explained to us the most
noteworthy places or residences that
we passed. As we passed the Home
of the Aged he told us there was an
old lady there who had recently ce-
lebrated his 109th birthday. He added
that he and a friend called to in-
terview her, and when they asked the
secret of her longevity, she replied:
"I have never been in love. When
we were leaving, though," he said,
"she asked my friend to call again."

On Friday we visited the ostrich
farm, where we saw nests full of
eggs that looked at a distance like
piles of rock, the eggs are so large.
They also had young birds of two
and four weeks old. We were told
that they grew six inches each month
until they are six months old. Those
four weeks old were as large as a
half-grown turkey.

Our new building, which is to be
used for a postoffice and store, is
progressing nicely. It is on the lot
owned by Mr. Carlton and being a
corner lot, located as it is, makes it
a most desirable place for the pur-
pose for which it is intended. Dr.
Watkins expects to erect a bank
building on the corner just across
the street and north of the new store.
This will put the store, which is built

ODD FELLOWS CELEBRATE.

Nineteenth Anniversary of This Noble
Order Commemorated.

The local lodge of Odd fellows, Cen-
ter Lodge No. 11, held their anniver-
sary service on Monday night and the
meeting was largely attended by the
members and visiting brethren.

Following the regular exercises and
anniversary services a tempting col-
ation was served and highly enjoyed
by the large number present.

The Odd Fellows are in a most
prosperous condition and more new
members are being added to the or-
der than any of the older ones, which
speaks well for the officers now pre-
siding.

Ready Replies.

One of Lord Carmarthen's future
constituents once asked the youthful
candidate his opinion upon some ab-
struse question of which he knew
nothing. "Let him alone!" cried an-
other derisively. "Don't you see he's
nothing but a baby?" "What do you
think?" reiterated his inquirer, heed-
less of the interruption and deter-
mined to have an answer. "I think,"
said Lord Carmarthen, with ready wit,
"that it is high time for all babies to
be in bed," and so saying he gathered
up his papers and disappeared from
the platform.

Again—and this last anecdote is so
well known as to have become well
nigh historical—at a crowded meeting
just before his election, he was inter-
rupted by the question, "Does your
mother know you're out?" "Yes, she
does," was the instant retort, "and by
Tuesday night she will know I'm in."
His prophecy proved correct, and he
headed the poll by a large majority.

MAN NEARLY KILLS OWN BOY MONDAY

COMPLAINT MADE BY NEIGH-
BORS WHO HEARD SCREAMS.

White and Black Alike Will Testify
Against Black Man on
Serious Charge.

Friday Williams, a middle-aged ne-
gro, was Tuesday arrested on com-
plaint of a number of white and col-
ored citizens for ill-treatment of his
little six-year-old son.

It seems from what could be learned
that Williams has for some time,
or ever since the death of the boy's
mother, been severely beating the
boy without just cause and he had
been repeatedly spoken to concerning
the manner in which he whipped the
little fellow.

On Monday night, however, he was
even more severe than usual, nearly
killing the lad, knocking him sense-
less, in which condition he lay for
some minutes before revived by
friends who went to the rescue.

Williams, it is said, would keep
the child shut up in a close room
all day with only a pitcher of water
and occasionally something to eat,
and if he was not in the best of
humor on his return from work he
would beat and otherwise mistreat
the boy.

Monday night was more than the
neighbors could stand for and they
had the man arrested and confined
in the county jail. Williams will be
given a trial this morning before
Judge Mason.

DON'T GROW OLD

Keep Your Hair Bright and Luxuriant
and Stay Young.

Yes, Parisian Sage, the most invig-
orating hair restorer, grows hair; the
women of America, who have luxu-
riant hair, know it does, and that is
why thousands of attractive women
throughout the land are regularly us-
ing it.

For years this almost marvelous
grower of lustrous and beautiful hair
was confined to the elite of Europe
and New York City, but about two
years ago it was given to a select
list of druggists, and today can be
obtained in any city or town in Amer-
ica where society women of refine-
ment dwell.

Parisian Sage is the most delight-
ful hair tonic in the world. It makes
the hair soft, lustrous and luxuriant
in a few days. It is perfumed most
delicately and is not sticky or greasy.
It stops falling hair, cures dandruff
and itching scalp in two weeks or
money back.

This is what Mrs. Elizabeth E. An-
derson, Mechanicsburg, Pa., writes:
"I had given up hope of ever being
cured of dandruff, when I purchased
a bottle of Parisian Sage. It has en-
tirely removed the dandruff, and has
started a growth of new hair, and this
after having been troubled for 15
years. I cheerfully recommend Paris-
ian Sage."

W. M. Johnson is the regularly ap-
pointed agent in Gainesville for Pa-
risian Sage, and he will sell you a large
bottle under a rigid guarantee for 50
cents.

A larger bottle of better tonic, that's
what you get when you lay down a
half dollar for a bottle of Parisian
Sage. The girl with the auburn hair
is on every package and bottle.

by one of his auditors that he had
read it in the translation of a Latin
work, cried out: "Confound those an-

There is no necessity for Floridians to leave the State in search of rest and recreation during the summer months. The many spring and seaside resorts within its borders furnish ample accommodations for all, and besides money spent in other States is of no benefit to Florida.

The Boston Herald of April 19th contains an announcement of the inception of a movement to commemorate the three-hundredth anniversary of the landing of the Pilgrims by a World's Tercentennial Exposition to be held in Boston during the year 1920. The time seems rather distant, but undertakings of such magnitude require years to perfect.

The Tampa Tribune, in discussing the passage of the constitutional amendment for State-wide prohibition, takes a sensible view of the situation and will refrain from agitating the matter for at least a year yet. "Keep cool," says The Tribune. "Don't be in a hurry to start the row. When it becomes necessary to open the campaign, let it be begun and carried on decorously and thoughtfully. It is a question to be decided in wisdom, not in excitement. Let both sides present their arguments and appeals to the voters in orderly fashion and abide the result. We can afford to and ought to have at least a year's relief from politics of any and every sort. We need a year of growth and development."

FIGHTING FIRE IN THE HOME.

What should be feared more than the burning of the home? There is danger that the lives of the loved ones, or our own, will be lost; danger of loss of all the building cost; danger of loss of pictures and gifts of absent or dead dear ones, and other precious things that money could not get again. But in few houses, very few, is there anything at hand with which to put out a starting fire, that would make ashes of these household treasures and of the home as well, says The Times-Union.

A ladder is often needed to get water to a fire started in the roof, or attic, by sparks and to save the lives of persons in the upper stories, for a fire in a dwelling soon makes the stairway impassable from smoke or flames. A ladder can be made in a day, or bought ready made for \$2.

In a farm house kitchen there should be a bucket kept full of water with which to stay a starting fire. The bucket used for water for cooking and drinking is full less than half the time, and may be empty at the wrong time. Fire buckets are made with round bottoms and held up by a shelf with a hole in it, or hung on a nail. One could not put to any other use a bucket that would not stand on its own bottom so it would not be removed from its place. In winter salt is put in the water in a fire bucket to keep it from freezing. Such a bucket should be kept on each floor of every home. They may be hidden in ornamental boxes.

The most effective piece of apparatus for putting out a starting fire is one of the metal tanks known as "carbonic acid gas extinguishers," which are seen on nearly every fire department wagon. They hold two bucketfuls of water and have a diameter one-third their height. At the top of the tank is a piece of hose a yard long. When the tank is invested, ready for use, sulphuric acid is spilled, from a bottle in its top, into a cupful of baking soda. When they get together soda water is formed which makes a pressure that will throw the water and gas in the tank forty feet, or into inclosed places which could not be reached with a water bucket.

The gas carried by the water helps greatly in smothering the flames. If water carrying carbonic acid is thrown on a fire between a ceiling and the floor above it, the blaze is smothered at once by lack of air. This extinguisher is most used from above the blaze, because carbonic acid gas being heavier than air falls. Each of the three gallons of water in the can takes out with it twenty-gallons of gas. Firemen have carbonic acid tanks holding forty gallons, which are called chemical engines, for use on fires that have ignited only one or two rooms. They cause little water damage.

Twenty-one makers of these extinguishers have them officially tested with a pressure of 350 pounds to the square inch, so there is no danger of one of them exploding while in the embrace of the user. There being no trust in the business, competition will probably keep the prices right.

Tubes of "dry powder extinguisher" have in them baking soda to throw on a fire. Firemen think the dry soda in them of little use.

Hand grenades are bottles of fluid which are kept for breaking on a starting fire. Many of them contain ammonia to choke a blaze. Grenades are little used except in ships.

Any substance must be made hot before it will take fire. When the heat is great enough to loosen the atoms of carbon in it, so they can join atoms of the oxygen in the air which they dearly love, there is a blaze. Anything that will cool the burning substance, so there is no longer heat enough to turn loose the carbon atoms, will put out the fire.

Water takes more heat away from burning material than any other fluid or substance. A fire that would heat water to 212 degrees Fahrenheit, making it boil, would make any other material very much hotter. Water cools the red-hot coals and so stops the fire. Aside from this a deluge of water keeps air away from burning substances. And, too, water on a fire is changed to steam and that change draws away heat.

KEEP TO THE RIGHT.

"Keep to the Right" is a law of the road, the observance of which prevents collisions and smash-ups. The same law applies to the great highways of life—on which humanity is travelling—a varied and motely crowd, children with wondering eyes, youths with eager, hopeful outlook, manhood with firm step and earnest purpose, age with retrospective gaze and faltering tread.

The way is thickly strewn with wrecks—broken ideals, crushed hopes, ruined careers—all due to failure to obey the law of the road—keep to the right. The young man who is thoughtlessly forming habits of idleness, dissipation and extravagance is failing to keep to the right and is pretty sure to land in the ditch of disgrace or the slough of despair. The man who engages in a tempting business venture which involves a sacrifice of principle in that it takes advantage of another's ignorance or lack of information, is turning to the left. He may reach a temporary gain through some smart trick of the law, but the crooked path will bring him to grief in the end.

The girl whose vanity tempts her to frivolity and conquest, the woman who seeks to injure a sister woman by malicious gossip, the man who plays the tyrant in his home, have turned to the left and forgotten the law of the road.

Keep to the Right! Golden words that should be graven on the memory—that should stand like finger posts beside every divergent path of temptation on the human highway. Keep to the Right—only then can you reach the goal in the world beyond.—"The Open House" in Uncle Remus.

The Coopers set up 45 reasons why they should be granted a new trial, but the principal one is that they do not want to pay the penalty.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

AGONY OF ECZEMA BEYOND WORDS

Whole Body a Mass of Raw, Torturing Humor—Hair All Fell Out and Ears Seemed Ready to Drop Off—Clothing Would Stick to Bleeding Flesh—Hoped Death Would End Fearful Suffering.

CASE SEEMED HOPELESS BUT CUTICURA CURED HER

"Words cannot describe the terrible eczema I suffered with. It broke out on my head and kept spreading until it covered my whole body. I was almost a solid mass of sores from head to foot. I looked more like a piece of raw beef than a human being. The pain and agony I endured seemed more than I could bear. Blood and pus oozed from the great sore on my scalp, from under my finger nails, and nearly all over my body. My ears were so crusted and swollen I was afraid they would break off. Every hair in my head fell out. I could not sit down, for my clothes would stick to the raw and bleeding flesh, making me cry out from the pain. My family doctor did all he could, but I got worse and worse. My condition was awful. I did not think I could live, and wanted death to come and end my frightful sufferings.

"In this condition my mother-in-law begged me to try the Cuticura Remedies. I said I would, but had no hope of recovery. But oh, what blessed relief I experienced after applying Cuticura Ointment. It cooled the bleeding and itching flesh and brought me the first real sleep I had had in weeks. It was as grateful as ice to a burning tongue. I would bathe with warm water and Cuticura Soap, then apply the Ointment freely. I also took Cuticura Resolvent for the blood. In a short time the sores stopped running, the flesh began to heal, and I knew I was to get well again. Then the hair on my head began to grow, and in a short time I was completely cured. I cannot praise Cuticura enough. I wish I could tell everybody who has eczema to use Cuticura. My condition was so terrible that what cured me cannot fail to cure anybody of this awful disease. If any one doubts the truth of this letter, tell them to write to me. Mrs. Wm. Hunt, 135 Thomas St., Newark, N. J., Sept. 28, 1908."

LANGUAGE OF MUSIC.

The Manner in Which It Appeals to the Human Heart.

To those musical agnostics who deny to music any benefits save those of design and maintain that of itself it cannot express ideas and feelings Bed-ford Mason makes appropriate reply.

But there is another side to the picture. What was it that made George H. rise in his place when they sang the "Hallelujah" chorus, thereby setting an example which is followed to this day? What was it in the finale of the fifth symphony that drew the Napoleonic veteran to his feet with the exclamation, "The emperor?" What sanctity in the Ambrosian hymns moved St. Augustine to tears?

During the wars of the French revolution it was forbidden, on pain of death, to play the "Ranz des Vaches" in the hearing of the Swiss soldiers, for so acute a longing for home did it bring upon them that they deserted in hundreds. Are we to think that there was no virtue in the music itself and that the effect produced was the outcome of purely accidental circumstances?

The Austrian government forbade Berlin to play the "Rackoczy" march at Budapest, fearful of its effect on the indomitable Hungarians. Was the fire of patriotism kindled by the mere knowledge that the melody symbolized Hungary, or did the notes speak with tongues of flame? Atlantic Monthly.

has joined the ranks of the immortal host, who now "rest under the trees" of Life Eternal—the men who followed the command of Lee. Our loving sympathy goes out to the widow and sons who are called to mourn this irreparable loss, for their sorrow is ours.

"The chief commemorative work of the General Association, U. D. C., is the placing of two monuments, one on the battlefield of Shiloh—where gallantly fought and fell many of the South's bravest defenders, led by the great chieftain, Albert Sidney Johnston, who fell there, a sacrifice to his Southland—and the erection of a monument in the Arlington National Cemetery, where sleep some of our Confederate dead. This has a triple claim upon you, for resting as it will, on the soil of the home of Robert E. Lee, it will be a memorial to that peerless commander; again it will typify the spirit of the Confederate States, which was the defense of constitutional government; and it will further mark the spot where, through the magnanimity of a provision of Congress, honorable place was given to some of our Confederate dead, and where care is shown to their graves. Shall we be less thoughtful of these, our dead? The Executive Committee of the Arlington Monument Association, Col. Hilary A. Herbert, chairman, is asking every chapter throughout this organization to set aside one day in the near future for concerted action in collecting funds for this purpose. The committee's plan will be sent out to you, and your president asks your earnest and active co-operation, which, if had, a large sum may be realized, with little individual cost.

"The veterans are asking your assistance in the purchase of the home and birthplace of President Jefferson Davis, at Fairview, Kentucky. Send contributions to Major John H. Leathers, Louisville, Kentucky. Let each chapter give something to this worthy historic object.

"Let each of us be mindful of the valuable work being done by The Confederate Veteran and show appreciation by subscribing—for it keeps us in touch with much that we should know. Join with your president in making our great association of patriotic and historic value; by so doing, we honor and glorify a past, so full of heroic memories, the history of a chivalrous, valiant people.

A LION HUNT.

Usually a Case in Which Hunters Goad the Game Into Combat.

There is a distinction in Africa between ordinary lions and "man eaters," says T. R. MacMeehan in McClure's Magazine. The ordinary lion does not willfully attack man. The presence of lions roaming at night on the veldt is not disturbing to any native nor to whites who have come to understand the least. Persons returning to their camps after nightfall do not notice the roaring of lions or the cries of leopards or hyenas.

It is seldom that people bent upon domestic errands carry weapons in the darkness, although at night the veldt of British East Africa is alive with roaring beasts, which may be heard from the verandas of the houses. Lions give the passing man a wide berth, day or night, when it is apparent that he means no mischief. An ordinary lion, even when wounded, will try flight before fight. When its escape is disputed it will, especially if wounded, try to maul its enemy with teeth and claws.

A lion hunt is usually a chase in which the hunters goad the game into combat. Once a lion has tasted human blood, however, it is no more afraid of man, but learns that he is the weakest of animals and the choicest of meat. Such a lion is known as a man eater because now he hunts man.

HAPPY WOMEN

Plenty of Them in Gainesville, and
Good Reason for It.

Wouldn't any woman be happy,
After years of backache suffering,
Days of misery, nights of unrest,
The distress of urinary troubles,
She finds relief and cure?

No reason why any Gainesville
reader

Should suffer in the face of evi-
dence like this:

Mrs. John Smith, 307 E. Magnolia
street, Gainesville, Fla., says: "I suf-
fered from a weak back and severe
pains in my sides for a long time. I
could not stoop without experiencing
sharp twinges through my body and
if I did so it was difficult to regain an
erect position. I was also subject to
headaches and at times was very
nervous. When I saw Doan's Kidney
Pills so highly recommended for
these troubles, I procured a box and
began their use. In a short time I
felt much better. The pains lost their
severity and I gained in strength.
I consider Doan's Kidney Pills an ex-
cellent remedy and am pleased to
recommend them."

THE GRACEFUL ANTELOPE.

He Seems Born of Light and Nursed
In the Lap of the Wind.

For me there have been no fairer
days than when the antelope skimmed
the plain with legs nebulous with
speed on that low gentle canter whose
deceptive motion left the best aimed
bullet far behind. For the antelope is
the only large animal that is wholly
spirituelle. Graceful as he may seem
when spurning the ground and swing-
ing high over rocks and brush, to re-
bound like a ball at the next touch of
earth, there is still something earthly
about the deer. But the antelope
seems born of light and nursed in the
lap of the wind. All his movements
show that he was meant for the air
rather than the earth. Though Nature
made a slight change in giving him
legs instead of wings, she made no
mistake, and her work has always
been the wonder and love of the hunt-
er. When troubles arise the deer
takes to the harbor of the hills, but
the antelope steers for the open sea.
The farther the plain sweeps wide and
free the more this gay rover loves its
safety, and a run that to the deer
would mean death is to him only a
"breather" that warms him up to the
race. Whether fluminating the horizon
like a shooting star in the clear morn-
ing air of the great plain or looming
high, like a stilted ghost in the mirage
of glowing midday, he is the most
charming of all things that run, and
his passing has left a great void that
nothing can fill. The few that are left,
protected as they are, give no idea of
the effect produced on a lover of the
open by one of the great hands of the
days that were, strung out in a film
almost like vapor with distance and
speed, and vanishing as if in air over
the land's outlying verge.—T. S. Van
Dyke in Recreation.

Eminent Authorities Say

That out-door exercise is needed by
the American people. That's all very
well, but how can people with rheuma-

leaving you as spry as a colt. Gives
quick and permanent relief from
rheumatism, neuralgia, lame back.

THE NUMBER SEVEN.

It Rarely Occurs in the Science of
Weights and Measures.

How would you define "seven?" The
Standard Dictionary says it is "one
more than six." Webster's calls it "one
more than six or one less than eight."
The abridged Webster says it is "five
and two," and the Century's definition
runs "one more than six; the sum of
three and four."

In metrology—that is, the science of
weights and measures—seven is com-
paratively rare. The seven days of
the week form a striking example of
its use, however.

Scholars have found, too, that the
Egyptian cubit contained seven hand-
breadths. "Cubit" is from the Latin
"cubitus," the elbow, or the distance
from the elbow to the end of the mid-
dle finger. The Roman cubit was one
and a half Roman feet or 17.4 English
inches, but the royal Egyptian cubit,
used in the building of the pyramids
of Gizeh, perhaps 3500 B. C., has been
learned from measuring sticks found
in the tombs to have been 20.64 Eng-
lish inches. The ordinary cubit was
divided into six palms or handbreadths,
and the use of seven in the Egyptian
cubit is ascribed by some investigators
to a probable custom of placing the
hand behind the elbow when measur-
ing along walls with the forearm and
leaving it on the wall until the arm
was laid down again. It should be
added that there are many other cubits
of widely different values, both ancient
and modern.—Rochester Democrat and
Chronicle.

Rough on the Architect.

"When I got the order to design a
big wholesale house for a firm that
has stores in five cities besides New
York; naturally I was elated," said an
architect. "I'll plan a building that
is bound to be satisfactory." I said to
myself, 'and then they will give me the
commission for those new stores they
expect to put up in those other five
cities.'

"Well, I did turn out a splendid store
—a store that was admired by every-
body in the wholesale trade. My pa-
trons were pleased, too, but instead of
giving me an order for those other
buildings they simply used the same
plans over and over again and built
all their houses alike. That's what I
call playing a low down trick on a fel-
low."—New York Globe.

Does Your Backache?

If you are a woman and you have this symptom get
Lydia E. Pinkham's Vegetable Compound without delay.

Backache seems an invention of the evil one to try woman's
souls. Only those who suffer this way can understand the
wearing, ceaseless misery.

We ask all such women to read the two following letters
for proof that Mrs. Pinkham's medicine cures backache
caused by female diseases.

Brooklyn, N. Y.—"I have been a great sufferer with a con-
stant pain in my back. I was advised to use Lydia E. Pinkham's
Vegetable Compound for it, and the pain has disappeared. I feel
like a new woman since that awful pain has gone, and may God
bless the discoverer of that great and wonderful remedy."—
Mrs. Peter Gaffney, 548 Marcey Ave., Brooklyn, N. Y.

Milwaukee, Wis.—"Lydia E. Pinkham's Vegetable Com-
pound has made me a well woman, and I would like to tell the
whole world about it.

"I suffered from female troubles and fearful pains in my
back. I had the best doctors and they all advised an operation.
Lydia E. Pinkham's Vegetable Compound made me a well
woman and I have no more backache. I am ready to tell every
one what this medicine has done for me."—Mrs. Emma Imse,
833 First St., Milwaukee, Wis.

Lydia E. Pinkham's Vegetable Compound has made
thousands of cures of such cases. You notice we say has
cured thousands of cases. That means that we are telling
you what it *has* done, not what we *think* it will do. We
are stating facts, not guesses.

We challenge the world to name another remedy for fe-
male ills which has been so successful or received so many
testimonials as has Lydia E. Pinkham's Vegetable Com-
pound.

For 30 years Lydia E. Pinkham's Vegetable
Compound has been the standard remedy for
female ills. No sick woman does justice to
herself who will not try this famous medicine.
Made exclusively from roots and herbs, and
has thousands of cures to its credit.

Mrs. Pinkham invites all sick women
to write her for advice. She has
guided thousands to health free of charge.
Address Mrs. Pinkham, Lynn, Mass.

MAY DAY FESTIVAL.

Baby Sow Will Be Important Feature of the Program.

Remember the lawn fete for Saturday afternoon, May 1st, on the Seminary lawn, for the benefit of the Public Library.

Come out and vote for your favorite. There will be two May-pole dances and a Queen to be voted for in each; also a baby show. There will be two classes of these, babies from two years and under, two prizes, one for the prettiest girl and one for the prettiest boy (you know all boys are pretty at that age, because it is so hard to tell them from girls); also two prizes for the second class, from two to four years, one for the prettiest boy and one for the prettiest girl. There will also be a prize for the prettiest decorated carriage. These prizes will be on display in the windows of C. H. Coles & Son and L. C. Smith.

A parade will form on the lawn of Col. W. W. Hampton and march over to the lawn, the babies in carriages first and the little tots walking behind.

For the sum of ten cents any child can be enlisted and surely we are all proud enough of our babies to be willing to display their charms for such a worthy cause.

Every citizen of Gainesville is proud or should be of its Library and we are determined to keep it going, but we must have the support of our people who have never failed us and will not at this critical time.

Mothers will please have babies on Col. Hampton's lawn by 4 o'clock.

An Extensive Service.

C. C. Voyle returned to Dunnellon yesterday after a short visit to his parents in this city. He has just completed a trip covering the entire circuit of the East Florida Telephone system, including its connections, and states that it is fine working service. You can now say "hello" to Tampa parties by the use of the East Florida and reach many of the important points of the State.

Miss Nora Semms of Micanopy arrived in the city yesterday and will spend some time here with her friend, Mrs. B. F. Jordan.

J. B. Wilcox of Wilcox was among the business visitors to the city yesterday. He left in the afternoon for Branford, being called there on business.

C. E. Melton, the saw-mill man of Micanopy, was in the city yesterday. He was en route to his home from Jacksonville, where he has been on a short business trip.

Miss Vivian Carter, who has been in the city for the past few days visiting the family of W. P. Carter and other relatives, left yesterday for her home at Live Oak.

Mr. and Mrs. T. J. Cone of Raleigh were visitors to the city Tuesday. They were accompanied by one of the children, who came for the purpose of having some pictures made.

Miss Sarah Lott of Augusta, Ga., who has been visiting Mrs. H. P. Holden for the past several days, left yesterday for her home. During her short stay here she made a number of friends who will be glad to again welcome her to the city.

Foley's Honey and Tar is a safeguard against serious results from spring colds, which inflame the lungs and develop into pneumonia. Avoid counterfeits by insisting upon having the genuine Foley's Honey and Tar, which contains no harmful drugs. J. W. McCollum & Co.

W. E. Kelser of Leadville, Colo., is among the new arrivals in Gainesville and will hereafter be associated with the field service under Capt. A. Paul. This gives this department seven special agents, two clerks and one field worker, which, with Capt. Paul, the chief, makes a total of eleven men connected with the department.

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally weaker in old age. Foley's Kidney

largely corrects urinary troubles, and builds the kidneys and restores strength and vigor. It does not irritate the system, but cleanses the kidneys by stimulating the kidneys so that they will excrete the poisons that collect in the system and cause the various ailments of old age.

GAINESVILLE AMATEUR VAUDEVILLE

This will be something entirely new in Gainesville. Eight Big Vaudeville Acts, consisting of Acrobatic Work, Irish and Black-Face Monologues, Funny Musical Acts, Dancing, Solo and Quartette Singing, a One-Act Farce and a One-Act Drama. DON'T MISS IT—IT WILL BE GOOD! Admission 25 and 50c. Remember the date. Benefit University Athletic Club.

IT'S FRESH EVERY DAY!

The Bread, Pie and Cake you eat should be nutritious. The finest flour, mixed with pure rich milk and baked in the "purity fashion," make our goods the most delicious it is possible to produce.
